

## Senior Software Developer:

Advertising company, specialized in Harnessing Data Insight to promote and develop customised applications for its clients, operating in Greece, Middle East (Dubai, Kuwait, Qatar, Saudi Arabia, Egypt) and Balkans, seeks to recruit a Software Developer, based in Athens.

Responsible for:

- Support and maintenance of existing applications.
- Suggesting new technology implementation methods and/or state of the art solutions.
- Design and implementation of new applications based on tight deadlines.
- Software projects analysis based on specific technical qualifications satisfying specific business requirements.
- R&D & innovation solutions.

Requirements:

- Proficient in English (writing & speaking).
- Bachelor's Degree in IT, Computer Science or relevant subject.
- Working knowledge on .NET Framework (ASP.NET, C#, VB).
- Working knowledge of Web Services, Web API 2.
- Basic front-end skills, MVC5, Razor, Web forms, JavaScript, jQuery, Bootstrap, CSS.
- ADO.NET, MSSQL (LINQ, Entity Framework 6).
- Working knowledge on using Version Control Systems (Git, MS Visual Source safe).
- Feeling familiar with agile methodologies and culture.
- Designing scalable software, paying attention to detail proactively.
- At least 3-5 years, work experience in a similar position.
- Excellent Command of English Language.

Nice to have:

- Mobile Development knowledge (Android & iOS)

- .NET CMS Platforms (Umbraco, Orchard, DNN...)
- Knowledge of JavaScript frameworks ReactJS or Angular or Vue.js

We offer:

- Competitive salary, directly dependent on candidate's profile and experience.
- The luxury of remote working from your working space.
- Friendly environment comprising young, enthusiastic, multi-national staff.
- Opportunities for professional learning and growth (engineering meetings, training, etc)
